

MEXICAN REBELS CALL BRITISHER A REFRASHER

His Death Already Has Been Decreed—Constitutionalists Said to Have Gathered a Mass of Evidence Against Him That He Worked Against Them at Zacatecas Battle.

Ed Paso, July 6.—The American consul at Durango, Theodore L. Hamm, who came to the border to get into touch with the state department, left Ed Paso yesterday for Zacatecas to try to secure the release of G. S. Douglas, a British subject.

Douglas is held by rebels at Zacatecas on a charge of being a federal spy and with aiding the federalists during the recent Zacatecas battle. It was learned yesterday that the rebels claim to have conclusive proof that he actively aided the federalists, and his execution already has been decreed.

First reports of Douglas' arrest, received by the British vice consul, H. C. Miles, here, were that the consul at Zacatecas had been arrested, but later it was learned that Douglas was confined by rebels with the consul's officials.

The rebel governor of Zacatecas, here, says, has gathered a mass of evidence against Douglas, and is pushing the charges against him personally.

Governor De La Varga has advised General Villa, at Torreon, that he has secured a number of federal documents from the former headquarters of General Medina Barron, in Zacatecas, which incriminate Douglas, and are sufficient to justify his execution.

Yera Cruz, July 6.—It is rumored here that an alliance between provincial president Victoriano Huerta and Zapata, revolutionary leader, is to be formed soon. Such a combination is regarded by most Mexicans as inconceivable on account of the enmity Zapata has borne for Huerta, who, as a general under Madero, gave him the hardest fight he ever had.

But the report brought here leaves little doubt that Huerta has entered the negotiations with the Morelos chief, who has fought steadily and consistently every government since Diaz. Both here and in the capital the conviction that a crisis is imminent still exists, but only vague reasons are offered for the fear that the next few days will see a development, as yet undefined. Recent statements by President Huerta have not been such as to indicate that he desires to maintain power, but quite to the contrary. However, Mexicans prominent in the political, commercial and social life of the capital, have been joining in increasing the army of fugitives, and several foreigners other than British, have taken the advice of Sir Lionel Carden, the British minister, to get out of what he regards as dangerous territory. Two special trains made up of the best equipment, left the capital for Puerto Mexico, Friday night and Saturday morning, respectively, according to persons who arrived here from Mexico City yesterday. Among the passengers are Mr. de la Huerta, General Joaquin Mas, Jr., and his family, and Querido Moreno, ex-minister of commerce. It is reported that Juan Huerta, son of the president, and one of Huerta's daughters, were also on one of the trains. It is understood that the president's wife and children are in the capital, and Mexicans from the capital report that they heard her

declare that she would not abandon her husband.

Mexicans from the interior and those just beyond the lines do not regard seriously the elections which are being held today. It is pointed out that such elections could scarcely have been conducted in their effect upon the constitutionalists and never could be regarded as legal, since the government is powerless to comply with the provisions of the law that the votes be cast freely throughout the territory. No announcement has ever been made as to the candidates.

Yera Cruz, July 6.—The fuse leading to a powder mine under Huerta is lit. Yesterday a contingent of foreigners from Mexico City reported the flight of Querido Moreno, the resigned minister of commerce in Huerta's cabinet. He is probably accompanied by Jorge Huerta, son of the dictator, and General Joaquin Mas, a nephew of Huerta, by marriage.

The report that a special train consisting of a Pullman and two troop cars, left Saturday. It is believed the party went to Puerto Mexico.

The special stuck closely behind the regular train, apparently fearing an attempt to dynamite. The special halted at Cordoba at the intersection with the isthmus road leading to Puerto Mexico. The blinds were down and it was impossible to see the occupants of the special.

Mexico City, July 6.—President Huerta, it is reported, has received virtually unanimous vote of confidence in Saturday's election. The returns indicate the re-election of all the present members of the chamber of deputies and the senate.

The lightest vote in many years was cast, both in the capital and near-by towns.

In Mexico City there was an almost complete abstention from voting and indifference was manifested everywhere.

**SHE NEVER WORRIED,
AND SHE LIVED TO BE
ONE HUNDRED AND TEN**

London, July 6.—Mrs. Rebecca Clark, reported to be the oldest British subject, died at Wood Green, North London, yesterday, at the age of 110 years. She was a busy needle-woman up to a week ago, and had her first automobile trip on her one hundred and seventh birthday.

Her recipe for longevity was "never worry."

Woolwich Strike Spreads

London, July 6.—The strike which broke out at the Woolwich arsenal on Friday over the dismissal of one man, has spread with such rapidity that the interior works have been closed, and practically deserted this morning. With such determination has the strike been carried out, that nearly 8,000 men have already ceased work and from 5,000 to 7,000 others may be involved. The trouble over the employment of non-union labor.

**DRANK BEER AND ATE
SAUSAGES OVER COFFIN**

Invidious Distinction Shown on
Account of Duchess' In-
ferior Birth.

Vienna, July 6.—Now that the bodies of the murdered Archduke Francis Ferdinand and his wife, the Duchess of Hohenberg, repose beneath the castle chapel at Arstetten, an unseemly controversy rages over the manner in which the funeral was conducted. The newspapers are devoting columns to the discussion of it. Moderate opinion inclines to the belief that the court of fiefs made the ceremonial too painful while the friends of the duchess are indignant at the emphasis laid on her inferior birth.

According to reports published in the leading Vienna papers, the procession of the bodies at Pöchlarn, across the Danube, was attended by most scandalous proceedings. A violent demonstration upon all the pre-arranged coffins, and the coffins were hurriedly carried on the stone-covered floor and remained there for two hours or more. Meanwhile the volunteer firemen, who were supposed to assist the local authorities in controlling the arrangements, were drinking beer and eating sausages, while the more important persons strolled about smoking cigars in close proximity to the coffin containing the body of the heir to the throne.

The torrential rain drove everybody into the waiting room, and says one account, "all the ordinary rules of behavior seemed to have been forgotten and the scene might be described as resembling the turmoil and noise of a country fair."

The coffins were brought to Pöchlarn in two freight cars coupled together. The interiors were draped with black cloth. The personal suite of the archduke and the duchess, exhausted by the journey, were seated in the first-class carriage, and the clergy in attendance to bless the bodies were kept waiting their appearance.

The highest court functionaries are severely attacked for their part in the conduct of the funeral, and it is said that but for the personal intervention of the emperor the body of the duchess would not have been permitted to be brought to the Hofburg arsenal on Friday over the dismissal of one man, has spread with such rapidity that the interior works have been closed, and practically deserted this morning.

With such determination has the strike been carried out, that nearly 8,000 men have already ceased work and from 5,000 to 7,000 others may be involved. The trouble over the employment of non-union labor.

For the purpose of extending their work and being in a better position to look after it, the United Aids, at their council meeting held last Friday decided to rent three rooms over Clegg and Chase's sporting goods store, at 223 Jasper avenue east, and will open their offices in a few days as a storehouse and offices. The secretary, Mrs. Newell, who is in close touch with all the welfare work in the city, desires that any cases that need attention should be promptly reported to her, and in this way the particular case will be passed over to the organization best able to care for it, as the action of the United Aids is based, is that of dividing the city into territories, with certain persons in charge of each, and in this way each section of the city is under the care of one or two ladies or gentlemen residing in that section.

Plans for financing the work were also under discussion at the meeting, and the council hope to be able to do their full share of social work during the coming winter. Notice of the opening of the office and the telephone number will be announced shortly.

DENIES STATEMENT THAT HE HAS BEEN REQUESTED TO DESIGN

George Fred Williams, American Minister to Greece, Again Talks.

**DECLARES PROMISES
OF POWERS ILLUSORY**

Useless Without Guarantee to
Send Troops to Interior of
Albania.

Athens, July 6.—George Fred Williams, the American minister to Greece, whose recent statements regarding conditions in Albania, have aroused much discussion, said yesterday that he knew nothing of the report that President Wilson had invited him to resign. He reiterated that he had received instructions from his government to visit Epirus and confer with the international commission, but admitted that the state department at Washington was not responsible for his report.

Referring to the Cerna protocol, he said that it gave the Epiotes no effective guarantee, because a majority of the powers, including Great Britain, refused to send troops to the interior of Albania. Moreover, it rejected the Epiote demands that the generalities should not be employed even in the case of "force majeure" outside of the borders of Epirus, and that for a time the government should be foreigners belonging to a neutral state.

A member of the international commission at Athens told Mr. Williams that these demands were not accepted, and without those guarantees Mr. Williams declared that the powers were absolutely illusory.

Paris, July 6.—Dimitri Pashas, minister of marine in the Turkish government, arrived here yesterday on a politico-naval mission with a view to the reorganization of the Turkish navy. He is accompanied by some high officials of the Turkish government. The party has already visited Premier Villain and M. Gauthier, minister of marine.

It is understood that a large order for naval armaments will be placed in France by the Turkish government. This move is considered important in view of the restoration of the navy during the recent war, when it was said that Turkey's defeat was due mainly to the inferiority of her armaments.

Dimitri Pasha was the guest of honor yesterday at a banquet given by the Turkish navy. He expressed in his speech the Turkish minister expressed the belief that the coming reorganization of the Turkish navy would place in the hands of the permanent peace in the Balkans.

London, July 6.—According to the Athens correspondent of the Times, after the international commission deputed to examine the situation in the American minister at Athens, he set himself to the task of interviewing various persons, high and low, the ministers of Prince William of Wales, medical and naval officers, the commissioners of the customs, the military and naval authorities, and the results set forth in his report in which he says, referring to Prince William: "I am not afraid to match my efforts for freedom with his bloody rule before the great judgment seat."

Paris, July 6.—Several well-known publicists, who also have a prominent part in the administration of the city, have been recently writing on the uselessness of further war. They declare that the policy of the present government is to keep the peace between Greece and Turkey, and that the threatened hostilities between Turkey and Greece from becoming effective, and that aside from this dark spot, there is no potential danger between nations which cannot be properly settled by arbitration.

The principal French advocates of the new movement against sinking unproductive labor and capital in armaments are Yves Guyot, former minister of public works, and Baron Edouard de Constant, a senator and member of the Haute Rhodan. The first has an article in the current number of the Journal des Economistes based on the question "How is it that the policy of the present government is to keep the peace between Greece and Turkey, and that the threatened hostilities between Turkey and Greece from becoming effective, and that aside from this dark spot, there is no potential danger between nations which cannot be properly settled by arbitration."

NO PRESSURE USED BY BRITAIN AND TOLLS ON PANAMA

Viscount Bryce Tells of President's Independence in
Thorny Place.

**PAYS TRIBUTE TO U.S.
FOR HONORABLE ACTION**

No Correspondence Between
Countries re Panama Since
Taft's Regime.

London, July 6.—A flat denial that Great Britain had brought pressure on the United States in connection with Panama tolls was made yesterday at the banquet of the American society by Viscount Bryce, the former British ambassador at Washington. Lord Bryce said that he had simply advised his government that "if the president thinks it right to repeat or go to arbitration, he will do it."

Lord Bryce added: "No country in the world has a stronger desire than the United States to do what is right and honorable."

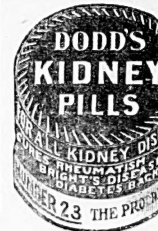

The American ambassador, Walter H. Page, said the last letter to his Washington government, relating to Panama, was written by Ambassador Bryce before the end of the Taft administration.

All the speakers referred to the international police match and the Hinesy regatta as evidence of the generous feeling between the two countries.

Killed in Shafing
Ferne, B. C., July 6.—Horace Quinney, aged 15 years, employed as a water-boy by the Lumber Co. here, was fatally injured by being wound around a shaft at the mill. When removed from the shaft he was alive and conscious, and was taken to the hospital but died shortly afterwards.

Martin to Live in Canada
London, July 6.—Joseph Martin stated Saturday he will sail on the Aquitania to reside permanently in Canada. He will remain a member of the commons for East St. Pancras, however, until the next general election.

A certain amount of friction has existed for some time between Mr. Martin and his political chiefs and a section of his supporters in the constituency over the independence of the adopted over certain questions, notably when he voted against the government on the Marconi question.

DOUBTFUL DEATH OF MAN FOUND IN THE RIVER

Wound in Throat May Indicate
Either Foul Play or
Suicide.

IDENTITY NOT KNOWN;
IN WATER TEN DAYS

Post Mortem Being Held To-
day and May Discover Man
Was Murdered.

A gruesome discovery made yesterday shortly after 12 o'clock noon by S. P. Knight an employee of the Hummelston mine, was the dead body of a man, apparently 35 or 40 years of age, floating in the water and with a wound in the neck. Whether death was due to drowning or as a result of the cut in the throat was not decided by the coroner. The body was found by the mounted police visited the place of the discovery and made an examination. The body, which was badly swollen and in a state of decomposition, had been in the water about ten days, and it is about this long ago that a young man is known to have disappeared from a dance at Beverly, east of the city, and has not been heard of since.

There is nothing on the body of the man to indicate his identity but an attempt will be made today to have the people who knew of the man's disappearance from the dance, to ascertain if this be the same one. A post mortem is being held on the body today by Drs. Landry and Jamieson and an inquest will be held tonight at Connelly and McKibbin's undertaking parlors.

Whether or not the cut on the man's neck represents foul play is not known, as while the cut has the appearance of a stab wound, it may have been caused by the man's fall onto a sharp stone or other object in the river, or may have been self-inflicted in an act of suicide.

The mysterious disappearance of the man from the dance at the Great West mill ten days ago, leads to the belief that the drowned man is the same, although it is stated that the man who disappeared was much younger than the one found. The theory that the man was murdered and thrown into the river has yet to be proven, but will be decided tonight. The man who was apparently about 35 or 40 years old, wore a dark gray suit of clothes, a blue shirt and blue collar, with ready made tie. His hair was brown or dark reddish in color and his noseache inflamed. He stood about five feet six inches in height. In his pockets were a pair of glasses and a tobacco pouch, but no money.

COOKING LAKE NOTES

Despite the threatening weather quite a number of people alighted from the week-end trains to Cooking Lake. Most of the permanent summer residents are now installed in their lake-side homes.

The full number of motor boats are traveling around the lake, there now being approximately 175,000 worth of them. Craft in commission on the water.

To the old-timer the north shore of Cooking Lake presents a very different appearance to that of the previous years, having now practically every feasible accommodation for the pleasure-seeker, including boarding and rooming establishments, stores, boat houses and many smaller establishments.

C. Sack is very optimistic regarding the future of the north shore if the Edmonton holiday crowds are properly catered to, he having one of the finest lake-side establishments in the west, including a large dancing pavilion on the water-side, which, when illuminated at night and having a dance in progress, presents a very pleasing and attractive sight.

Realizing the inability of many people to afford to visit interesting spots on the lake in private launches, Mr. Fife has built a large single-deck craft with a carrying capacity of about 50 or 60 persons. This boat is operated by Mr. Powell of Military Point, who, by means of his motor launch "Tona," runs a two-hour service around the lake to points desired by the passengers. This is one of the ventures which will be most popular the coming season, there also being room for symphony dances in the center of the deck.

Buildings planned and in the course of erection are a hotel, residences, churches, boat houses, and various other structures.

Ross occupied the post week-end clearing weeds from his shore property, there discarding a sand bottom, which, if cleared of stones and rubbish, would make an excellent bathing beach, a thing urgently needed at Cooking Lake.

An important meeting of the property holders and residents is called for Monday, July 13, in Edmonton, for the purpose of forming an association in the interests of Cooking Lake.

The principal business of the evening will be the forming of a plan to remedy the inadequate train service running between the lake and Edmonton.

Body Reaches Birmingham
Birmingham, England, July 6.—The body of Joseph Chamberlain, accompanied by Mrs. Chamberlain and her mother and the Misses Chamberlain, arrived at Birmingham from London yesterday afternoon. A flood offering from Mrs. Chamberlain in the form of a cross was placed on the coffin.

El Paso, Tex., has a new deep sewer line costing \$90,000. It is 15,000 feet in length.

BELIEVED WRECK WAS UNEXPECTED RESULT OF PLOT

Police Find Evidence That
Anarchists Headquartered
in House.

CHARGES HELD AGAINST
TWO OF THOSE KILLED

Stated That Sympathizers
Will Carry Out An Im-
pressive Public Funeral.

New York, June 6.—In the ruins of the Leighton avenue tenement house crushed Saturday by the premature combustion of a powerful explosive, which killed three persons and three other people, the authorities yesterday found evidence that Carson's apartment was a center for the distribution of inflammatory literature which was printed there, and that at the time of the explosion it was apparently a bomb factory, filled with the ingredients of death-dealing missiles.

A small printing press, revolutionary pamphlets and circulars, an electric dynamo, two electric batteries, cartridges and bits of steel were among the things uncovered in the search, which tends, in the opinion of the police, to show an anarchistic plot at assassination. That a demonstration, halted by the bombing of someone who was preparing an infernal machine for his mission, was planned against the Rockefeller family in Tarrytown, is the theory upon which the authorities are working.

Two of those killed in the wrecked apartment were prominent agitators, who were to be placed on trial in Tarrytown today on charges of disorderly conduct, in connection with the campaign of demonstration inaugurated against John D. Rockefeller, Jr., as a protest against his attitude in the Colorado oil mine strike.

Fourth Body Found
The body of the fourth victim of the explosion, which occurred yesterday, was that of Charles Berg, known in I.W.W. circles as "the big Swede," an associate of Arthur Carson, who was not a member of the I.W.W. but was associated with Carson and his associates.

Especially interesting, with the discovery by the police of anarchistic literature and electrical machinery in the ruins of Carson's house, was the assertion by I.W.W. leaders that Carson was not a member of the I.W.W., having recently been refused admission. They declared "that the I.W.W. had nothing to do with the explosion."

A gruesome, but suggestive, piece of evidence uncovered was a severed hand which clutched a small piece of wire made for connections. The authorities believe that the owner of this hand was in the act of making an electric connection for one of the bombs and battery when the explosion occurred, and he was killed, leaving the hand a mute witness of the manner in which the tragedy occurred.

Alexander Berkman, anarchist and an associate with Emma Goldman in the publication of "Mother Earth," an anarchist paper, was killed at length by the police Saturday night, declared that none of the dead men were members of the I.W.W., and that the agitation they had conducted was done in behalf of the striking miners of Colorado.

To Hold Public Funeral
He said that a number of anarchistic organizations were already making plans to hold an impressive funeral on next Sunday afternoon.

A party of sympathizers, including Berkman, was to go to Tarrytown today to attend the trial of the I.W.W. agitators.

No unusual precautions to guard the Tarrytown court house have been taken. Sheriff Boyle stated yesterday that he did not anticipate any trouble from the friends of those who are to be arraigned.

John D. Rockefeller went to church this morning at Pocantico Hills. He returned to church, but insisted on walking back to his estate, accompanied only by his superintendent. There were no I.W.W. agitators about the place yesterday or last night, and the guard on duty at the estate had little to do.

Explosion Causes Panic
Colon, July 6.—The explosion of a great quantity of dynamite yesterday at Ximidi, about five miles from Colon, shook the entire district, causing something of a panic in the towns and villages. So far as can be learned, only one man was killed.

Rev. W. B. Palmer Dead
St. Louis, July 6.—Rev. W. B. Palmer, of St. Louis, editor and publisher of the Christian Advocate, died yesterday at the home of a niece, in Richmond, Va., according to telegrams received here last night.

SERGEANT-MAJOR UNDER GENERAL FRENCH In the Parlor Car

Veteran of Boer War Who Lost
Health on the Veldt Tells
Experience.

Good Advice for All Who Have Indigestion or Stomach Disorders.
In his home at Waldridge, N.S., no one is better known than Sergeant-Major Cross, late of the 1st Queen's Own Hussars. Speaking of the ill-effects of a campaign upon a man's health, the Sergeant-Major writes: "I served under General French during the late Boer war. It was perhaps owing to a continued diet of bully beef, hard tack, and bad water, but at any rate my stomach entirely gave out. I was in such a state that I could eat nothing without the greatest effort. The army doctor did not help me much, and since leaving the service I have been very miserable. Some few months ago a friend told me he had been a great sufferer from indigestion until he tried Dr. Hamilton's Pills; they cured him. I confess I was at first very much doubtful, but the first dose made me feel better than I had been for a long time. The second dose completely cured me, and now I can eat everything and anything. I have recommended them to others and in every other result has been similar to mine."

Quick, sure results attend the use of Dr. Hamilton's Pills in all disorders of the stomach, correct indigestion, make you feel uplifted and strengthened. The pills completely cure, Dr. Hamilton's Pills always prove a good prescription. 25c. per box, five boxes for \$1.00, all dealers, or the Catabolite Co., Buffalo, N.Y., and Kingston, Ont.

**'PEG' AMERICANS
GREEN HOME AND
ADOPTED COUNTRY**

Telegrams dispatched to Presi-
dent Wilson and Duke
of Connaught.

REJOICE IN KINSHIP
WITH GREAT BRITAIN

Canadian and American troops
Attend Dual Celebration
in Vermont.

Winnipeg, July 6.—Two live wires were sent out by Americans living in Winnipeg, the first to President Wilson, of the United States and the other to the Duke of Connaught, governor-general of Canada. The telegrams read:

"To the President of the United States, Washington, D.C.—
"Extremely Sir—Americans in Winnipeg from thirty states of the American Union, observing the one hundred and thirty-eighth anniversary of the beginning of American independence, cordially extend greetings from north to south.
"Their observance today expresses their admiration for the great works of the United States. Their hearts are divided between a generous Canada and a beautiful United States.
"They sincerely wish for continued and increased American prosperity and progress through your presidency and the future for steady growth in the great country, and for a day of universal brotherhood.
"Signed, 'Winnipeg Americans.'
"To H.R.H. the Duke of Connaught, Governor General, Ottawa.
"Extremely Sir—Americans in Winnipeg observing the one hundred and thirty-eighth anniversary of the beginning of American independence, desire to extend to you their appreciation of the most cordial and friendly relations fostered by and existing with the people of Canada.
"Our special message of the day is our declaration of pride in kinship by blood, tradition and by adoption, as maternal British and with the people of Canada.
"(Signed) 'Winnipeg Americans.'
Troops Fraternize.
St. Albans, Vermont, July 6.—The United States and Canadian troops who joined Saturday in a dual celebration of Independence Day and the centennial of the signing of the United States Constitution, attended church yesterday in a body. The troops included a squadron of the second United States cavalry from Fort Ethan Allen and a detachment of the second brigade heavy artillery of Montreal. The Canadians returned to Montreal late in the day.

A. I. Murdoch Goes Abroad
Mr. A. I. Murdoch, of the firm of Messrs. Cox and Murdoch, real estate agents, left the city last night for Glasgow, Scotland. One of the objects of Mr. Murdoch's visit is to present a letter to the shareholders of the Glasgow-Canadian Land Co., Ltd., of which he is manager, and also to raise questions for the further extension of the company's operations in the Peace River country and elsewhere. This is Mr. Murdoch's third visit to the Old Country in connection with the business of his firm, and the results of the past year's work have far exceeded those of previous years in spite of the dullness in the realty market.

Kitchen Accident is Fatal.
Port Arthur, Ont., July 6.—With her hands practically cooked after her husband's death when she attempted to light a fire by using cast oil in the kitchen stove, Miss Jean Blackwood, of Schreiber, as she was being rushed to a Port Arthur hospital on the C.P.R. train.

IN THE PARLOR CAR

Children and Adults
Railway and Shipping News

The week-end, over-night and holiday summer resort out of Edmonton is becoming of considerable magnitude. Saturday afternoon the Canadian Northern special over the G.T.P. is crowded with passengers for Wabasca and other resorts. The special leaves Sunday there and come back to the city on either No. 2 arriving here at 8:30 a.m. and leaving for Wabasca at 9:30, with dining car attached. The G.T.P. service has gradually been improved, and the service will be further increased and improved as time goes on and traffic increases. There are several colonies around the lake, and a launch, the "Lady Bird," runs from Wabasca to Soba Beach, where track and natural facilities are excellent. Boats and eating and sleeping accommodations are to be had at several places and a splendid park in a few blocks back from the beach, where there is a pavilion, ball grounds, etc.

Many take advantage of the new train to Calgary over the G.T.P. daily, leaving here at 8:30 a.m. and arriving back at 8:10 p.m., to spend the day, especially Sunday, at Cooking Lake. The train is very comfortable and the lake have just enough time to have breakfast on the train going down and dinner coming back at night.

The Canadian Northern's special Saturday afternoon train to Calgary, the canoe club headquarters, leaving here at 2 p.m. and leaving St. Albert at 3:30 p.m. The train leaves for the first time Saturday of last week and will not doubt be well patronized during this season. The regular canoe club will hold a regatta, each Saturday afternoon and a dance in the evening. The train will also come back along the Athabasca train, leaving St. Albert at 6:31 p.m.

The lieutenant-governor of Manitoba, Sir Douglas Cameron, the chief of Winnipeg's council and other citizens, were guests of the C.P.R. the other day on a trip to the new terminal yards at North Triniton, outside the city. This new terminal system, which is highly elaborate, as the country's largest, will include 286 miles of track, with 1,352 switches and 302 private sidings. The great improvement of the new yard is 72,888 miles and the ultimate development is 131,519 miles. There are 100 miles of new track and 827 miles of terminal track, serving the round house. The engine house has 30 stalls, and the yard has a capacity of 1,600,000 bushels. This is the elevator whose foundations were laid in 1908. The new terminal system is the largest in the world. These yards are the gravity system for the C.P.R. and will handle 1,000,000 bushels of grain a day. The new terminal system is the largest in the world. These yards are the gravity system for the C.P.R. and will handle 1,000,000 bushels of grain a day. The new terminal system is the largest in the world. These yards are the gravity system for the C.P.R. and will handle 1,000,000 bushels of grain a day.

France May Expel Agents.
Paris, July 6.—It is stated on the highest authority that the French government is likely to expel from the country the American treasury agents found prosecuting such a high handed system of interference with the affairs of the French government. It was disclosed in the recent Muro-Durand case.

The business section here has long been complaining bitterly of the ineffectual methods of such agents, and indignation has now been communicated to official circles.

TOO LATE FOR CLASSIFICATION.
